J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013

The Directors are pleased to submit their report to the member together with the audited financial statements of the Bank for the financial year ended 31 December 2013.

PRINCIPAL ACTIVITIES

The principal activities of the Bank are banking and related financial services.

There was no significant change in the nature of these activities during the financial year.

FINANCIAL RESULTS

	RM'000
Net profit for the financial year	<u>65,277</u>

DIVIDENDS

No dividend has been paid, declared or proposed since the end of the Bank's previous financial year. The Directors do not recommend the payment of any dividend for the financial year ended 31 December 2013.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves and provisions during the financial year other than those disclosed in the financial statements.

EQUITY COMPENSATION BENEFITS

The ultimate holding company, JPMorgan Chase & Co. ("JPMC") has a Long-Term Incentive Plan ("LTIP") that provides for grants of common stock-based awards, including stock options, restricted stock, and restricted stock units ("RSU") to certain key employees employed by JPMC and its subsidiaries. JPMC also grants stock options to other employees as recognition of the services rendered, under its broad based employee stock option plan such as the Value Sharing Plan.

Details of the equity compensation benefits are set out in Note 32 to the financial statements.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

DIRECTORS

The Directors of the Bank who have held office since the date of the last report and as at the date of this report are as follows:

Kevin Wong Chee Wah
Anthony Julian Cole
Lau Souk Huan
Steven Ronald Clayton
Faisal bin Ismail
Omar bin Malek Ali Merican
Tan Sri Dato' Ahmad bin Mohd Don (Resigned on 1 January 2014)

In accordance with Article 95 of the Bank's Articles of Association, Kevin Wong Chee Wah and Omar bin Malek Ali Merican will retire at the forthcoming Annual General Meeting and, being eligible, offer themselves for re-election.

DIRECTORS' BENEFITS

During and at the end of the financial year, no arrangements subsisted to which the Bank is a party, being arrangements with the object or objects of enabling Directors of the Bank to acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other body corporate except that certain Directors received remuneration as Directors and employees of the Bank and related corporations, and share options granted to Directors of the Bank by the ultimate holding company.

Since the end of the previous financial year, no Director of the Bank has received or become entitled to receive any benefit (other than the Directors' remuneration as disclosed in Note 24 to the financial statements) by reason of a contract made by the Bank or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

DIRECTORS' INTERESTS IN SHARES AND OPTIONS

According to the Register of Directors' shareholdings, the Directors who held office at the end of the financial year did not hold any interest in shares, restricted stock units and share options, of the Bank and its related corporations during the financial year.

BAD AND DOUBTFUL DEBTS

Before the financial statements of the Bank were made out, the Directors took reasonable steps to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for bad and doubtful debts.

At the date of this report, the Directors are not aware of any circumstances which would render the amounts written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Bank inadequate to any substantial extent.

J.P. MORGAN CHASE BANK BERHAD

(Incorporated in Malaysia)

DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

CURRENT ASSETS

Before the financial statements of the Bank were made out, the Directors took reasonable steps to ascertain that any current assets, other than debts, which were unlikely to be realised in the ordinary course of business, their value as shown in the accounting records of the Bank, had been written down to an amount which they might be expected to realise.

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to current assets in the financial statements of the Bank misleading.

VALUATION METHODS

At the date of this report, the Directors are not aware of any circumstances which have arisen which render adherence to the existing methods of valuation of assets or liabilities in the Bank's financial statements misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

- (a) any charge on the assets of the Bank which has arisen since the end of the financial year which secures the liability of any other person; or
- (b) any contingent liability in respect of the Bank which has arisen since the end of the financial year other than in the ordinary course of banking business.

No contingent or other liability of the Bank have become enforceable or is likely to become enforceable, within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Bank to meet its obligations as and when they fall due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Bank which would render any amount stated in the financial statements misleading.

ITEMS OF AN UNUSUAL NATURE

The results of the Bank's operations during the financial year were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, to affect substantially the results of the Bank's operations for the current financial year in which this report is made.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

CORPORATE GOVERNANCE STATEMENT

The Bank is committed to uphold good corporate governance practices in conformity with Bank Negara Malaysia ("BNM") Guidelines on Corporate Governance for Licensed Institutions which was effective on 19 June 2013 and all other related guidelines issued by BNM.

In addition to the above, the Board also observed JPMC's global Code of Conduct. The Code of Conduct sets forth guiding principles and rules of behaviour by which the Bank conducts its daily business with its customers, vendors, shareholders and with its employees. The Code of Conduct applies to all employees and Directors who are required to annually affirm that they are in compliance with it.

BOARD OF DIRECTORS

Composition of the Board of Directors

RATINGS BY EXTERNAL RATING AGENCY

The Bank is not rated by any external rating agency as at the reporting date.

OVERALL BUSINESS STRATEGY FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013

J.P. Morgan Malaysia's financial results for 2013 exceeded expectations and the momentum going into 2014 is encouraging. Our results were supported by the Bank's consistent strategy of building a business around our target clients to achieve stable and planned growth. Our key businesses, in particular treasury services, wholesale banking and markets flow business, delivered strong growth which further strengthened our position within the domestic Malaysian market.

J.P. Morgan's target clients, consisting of multi-national corporations, large domestic corporates, financial institutions and non-bank financial institutions, benefit from our significant competitive advantage in terms of a broad product mix and global network which enables us to effectively service clients that have domestic as well as an international presence.

EXPECTATIONS IN 2014

The macro environment remains challenging in 2014 due to the effects of tapering arising from the unwinding of quantitative easing by the Federal Reserve. Despite these conditions, we remain optimistic that the economic environment will continue to grow. We will continue to focus on the quality and stability of earnings by building treasury services and wholesale banking while enhancing our flow business.

With the Bank's strong capitalisation and proven strength across product and services, we are confident that we will continue to see revenue growth as we invest in our existing client relationships. We will leverage on our global competitive advantages in order to provide clients with value added solutions and innovative products. Our international corporate and investment banking businesses are an important component of J.P. Morgan's overall global strategy and the continued build-out of these businesses will contribute positively to our growth aspirations.

ULTIMATE HOLDING CORPORATION

The Directors regard JPMorgan Chase & Co., a corporation incorporated in the United States of America, as the ultimate holding corporation of the Bank.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013**

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements and are also consistent with those applied in the previous year, unless otherwise stated.

A BASIS OF PREPARATION

The financial statements have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards, Bank Negara Malaysia ("BNM") Guidelines and the provisions of the Companies Act, 1965.

The financial statements of the Bank have been prepared under historical cost convention unless otherwise indicated in this summary of significant accounting policies.

The preparation of financial statements in conformity with MFRS and BNM Guidelines requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year. It also requires Directors to exercise their judgement in the process of applying the Bank's accounting policies. Although these estimates are based on the Directors' best knowledge of current events and actions, actual results may differ from estimates. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in accounting policy Note Q.

- (a) Standards, amendments to published standards and interpretations that are effective and applicable to the Bank.

The following standards, amendments to standards and interpretations have been adopted by the Bank for the financial year beginning on or after 1 January 2013:

- MFRS 13 "Fair Value Measurement" (effective from 1 January 2013) aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across MFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards. The enhanced disclosure requirements are similar to those in MFRS 7 "Financial Instruments: Disclosures", but apply to all assets and liabilities measured at fair value, not just financial ones.
- Amendment to MFRS 101 "Presentation of Items of Other Comprehensive Income" (effective from 1 July 2013) requires entities to separate items presented in 'other comprehensive income' ("OCI") in the statement of comprehensive income into two groups, based on whether or not they may be recycled to profit or loss in the future. The amendments do not address which items are presented in OCI.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

A BASIS OF PREPARATION (CONTINUED)

- (a) Standards, amendments to published standards and interpretations that are effective and applicable to the Bank (continued)

The following standards, amendments to standards and interpretations have been adopted by the Bank for the financial year beginning on or after 1 January 2013 (continued)

- Amendment to MFRS 119 "Employee Benefits" (effective from 1 January 2013) makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits, and to the disclosures for all employee benefits. Actuarial gains and losses will no longer be deferred using the corridor approach. MFRS 119 shall be withdrawn on application of this amendment.
- Amendment to MFRS 7 "Financial Instruments: Disclosures" (effective from 1 January 2013) requires more extensive disclosures focusing on quantitative information about recognised financial instruments that are offset in the statement of financial position and those that are subject to master netting or similar arrangements irrespective of whether they are offset.

- (b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Bank but not yet effective

The Bank will apply the new standards, amendments to standards and interpretations in the following periods:

- (i) Financial year beginning on/after 1 January 2014
- Amendment to MFRS 132 "Financial Instruments: Presentation" (effective from 1 January 2014) does not change the current offsetting model in MFRS 132. It clarifies the meaning of 'currently has a legally enforceable right of set-off' that the right of set-off must be available today (not contingent on a future event) and legally enforceable for all counterparties in the normal course of business. It clarifies that some gross settlement mechanisms with features that are effectively equivalent to net settlement will satisfy the MFRS 132 offsetting criteria.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

A BASIS OF PREPARATION (CONTINUED)

- (b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Bank but not yet effective (continued)

The Bank will apply the new standards, amendments to standards and interpretations in the following periods: (continued)

- (ii) Financial year beginning on/after 1 January 2017

- MFRS 9, 'Financial Instruments - Classification and Measurement of Financial Assets and Financial Liabilities' (effective no earlier than annual periods beginning on or after 1 January 2017) replaces the parts of MFRS 139 that relate to the classification and measurement of financial instruments. MFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortised cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the MFRS 139 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. The Bank has yet to assess MFRS 9's full impact and will also consider the impact of the remaining phases of MFRS 9 when completed by the Malaysian Accounting Standards Board.

Other than as disclosed above, the adoption of the above MFRS is not expected to have any significant financial impact on the results of the Bank.

(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

B INCOME RECOGNITION

Interest is recognised in interest income and interest expense in the income statement for all interest bearing financial instruments using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts the expected future cash payments or receipts through the expected life of the financial instrument, or when appropriate, a shorter period, to the net carrying amount of the instrument. When calculating the effective interest, the Bank estimates cash flows (using projections based on its experience of customers' behaviour) considering all contractual terms of the financial instrument but excluding future credit losses. Fees are included in the calculation to the extent that they can be measured and are considered to be an integral part of the effective interest rate.

Where a financial asset is classified as impaired, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

C RECOGNITION OF FEES AND OTHER INCOME

Loans and advances arrangement fees and commissions are recognised as income when all conditions precedent are fulfilled.

Commitment fee income relating to loans and guarantee fees is recognised over the period during which the related service is provided or credit risk is undertaken.

D ALLOWANCES FOR LOSSES ON LOANS AND ADVANCES

Impaired loans and advances are measured at their estimated recoverable amount. Additional impairment allowance is made if the recoverable amount is lower than the carrying value of the loans and advances. Recoverable amount refers to the present value of estimated future cash flows discounted at the original effective interest rate.

An uncollectible loan or portion of a loan classified as impaired, may be written off, after taking into consideration the realisable value of collateral, if any, when in the judgement of the management, there is no prospect of recovery.

(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

E REPURCHASE AGREEMENTS

Securities purchased under resale agreements are securities which the Bank has purchased with a commitment to resell at a future date. The commitment to resell the securities is reflected as an asset on the statement of financial position.

F FINANCIAL ASSETS AND LIABILITIES

Financial assets

The Bank classifies its financial assets into the following categories: financial instruments at fair value through profit or loss; loans and receivables; held-to-maturity investments and available-for-sale financial assets. Management determines the classification of financial instruments at initial recognition.

(a) Financial instruments at fair value through profit or loss

Financial instruments are classified in this category if they are held for trading, or if they are designated at fair value through profit or loss at inception.

A financial asset is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are also categorised as held for trading unless they are designated as hedges.

Financial instruments included in this category are recognised initially at fair value and transaction costs are taken directly to the income statement. Gains and losses arising from changes in fair value are included directly in the income statement.

Regular way purchases and sales of financial instruments held for trading or designated under the fair value option are recognised on trade date, being the date on which the Bank commits to purchase or sell the asset.

(b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which are not classified as available for sale.

Loans and receivables are initially recognised at fair value including direct and incremental transaction costs, and measured subsequently at amortised cost using the effective interest method.

Regular way purchases and sales of loans and receivables are recognised on contractual settlement.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

Financial assets (continued)

(c) Held-to-maturity financial assets

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Bank's management has the positive intention and ability to hold to maturity. If the Bank sells other than an insignificant amount of held-to-maturity financial assets, the entire category will be tainted and reclassified as available-for-sale financial assets.

Held-to-maturity financial assets are initially recognised at fair value including direct and incremental transaction costs, and measured subsequently at amortised cost using the effective interest method.

Regular way purchases of held-to-maturity financial assets are recognised on trade date, being the date on which the Bank commits to purchase the asset.

(d) Available-for-sale financial assets

Available-for-sale financial assets are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not categorised into any of the other categories described above.

Available-for-sale financial assets are initially recognised at fair value including direct and incremental transaction costs, and are subsequently held at fair value. Gains and losses arising from changes in fair value are included as a separate component of equity until sale when the cumulative gain or loss is transferred to the income statement. Interest determined using the effective interest method, impairment losses and translation differences on monetary items are recognised in the income statement. Dividends on available-for-sale equity instruments are recognised in the income statement when the Bank's right to receive payment is established.

Regular way purchases and sales of available for sale financial instruments are recognised on trade date, being the date on which the Bank commits to purchase or sell the asset.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

Financial liabilities

The Bank classifies its financial liabilities into the following categories: financial liabilities at fair value through profit or loss (including financial liabilities held for trading and those that designated at fair value), financial liabilities at amortised cost and hedging derivatives.

(a) Financial liabilities at fair value through profit or loss

Financial instruments are classified in this category if they are held for trading, or if they are designated at fair value through profit or loss at inception.

A financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are also categorised as held for trading unless they are designated as hedges. Financial liabilities held for trading also include obligations to deliver financial assets borrowed by a short seller.

Gains and losses arising from changes in fair value of financial liabilities classified held for trading are included in the income statement.

(b) Other liabilities measured at amortised cost

Financial liabilities that are not classified as at fair value through profit or loss fall into this category and are measured at amortised cost. Financial liabilities measured at amortised cost are deposits from customers, banks and related parties.

Derecognition of financial assets and liabilities

Financial assets are derecognised when the contractual rights to receive the cash flows from these assets have ceased to exist or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred (that is, if substantially all the risks and rewards have not been transferred, the Bank tests control to ensure that continuing involvement on the basis of any retained powers of control does not prevent derecognition). Financial liabilities are derecognised when they have been redeemed or otherwise extinguished.

Determining fair value

The fair value of financial instruments, such as exchange-traded and over-the-counter securities and derivatives, is determined by reference to a quoted market price for that instrument or by using internally developed valuation models. Where the fair value is calculated by using valuation models, the methodology is to calculate the expected cash flows under the terms of each specific contract and then discount these values back to a present value. These models use as their basis independently sourced market parameters including interest rate yield curves, equities prices, option volatilities and currency rates.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

G DERIVATIVE FINANCIAL INSTRUMENTS

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and option pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

Certain derivatives embedded in other financial instruments are treated as separate derivatives when their economic characteristics and risks are not closely related to those of the host contract and the host contract is not carried at fair value through profit or loss. These embedded derivatives are separately accounted for at fair value, with changes in fair value recognised in the income statement unless the Bank chooses to designate the hybrid contracts at fair value through profit or loss.

H IMPAIRMENT OF FINANCIAL ASSETS

The Bank assesses at each balance sheet date whether there is objective evidence that loans and receivables or available-for-sale financial assets are impaired. These are impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more loss events that occurred after the initial recognition of the asset and prior to the balance sheet date ('a loss event') and that loss event or events has had an impact on the estimated future cash flows of the financial asset or the portfolio that can be reliably estimated. The criteria that the Bank uses to determine that there is objective evidence of an impairment loss include:

- (a) significant financial difficulty of the issuer or obligor;
- (b) a breach of contract, such as a default or delinquency in interest or principal payments;
- (c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- (d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- (e) the disappearance of an active market for that financial asset because of financial difficulties;
- (f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - (i) adverse changes in the payment status of borrowers in the portfolio;
 - (ii) national or local economic conditions that correlate with defaults on the assets in the portfolio.

For loans and receivables, the Bank first assesses whether objective evidence of impairment exists individually for loans and receivables that are individually significant, and individually or collectively for loans and receivables that are not individually significant. If the Bank determines that no objective evidence of impairment exists for an individually assessed loan and receivable, whether significant or not, it includes the asset in a group of loans and receivables with similar credit risk characteristics and collectively assesses them for impairment. Loans and receivables that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

The amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The amount of the loss is recognised using an allowance account and recognised in the income statement.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

H IMPAIRMENT OF FINANCIAL ASSETS (CONTINUED)

Where appropriate, the calculation of the present value of the estimated future cash flows of a collateralised loan and receivable asset reflect the cash flows that may result from foreclosure costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purposes of a collective evaluation of impairment, loans and receivables are grouped on the basis of similar risk characteristics, taking into account asset type, industry, geographical location, collateral type, past due status and other relevant factors. These characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the counterparty's ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of loans and receivables that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the group and historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted based on current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist. The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

When a loan is uncollectible, it is written off against the related allowance for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off are credited to the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the income statement.

I IMPAIRMENT OF NON-FINANCIAL ASSETS

The Bank assesses at each balance sheet date whether there is objective evidence that an asset is impaired. An asset is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the asset that can be reliably estimated.

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there is separately identifiable cash flow (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to the income statement unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Any subsequent increase in recoverable amount is recognised in the income statement unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

J FIXED ASSETS

Fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation of fixed assets is calculated to write off the cost of the fixed assets on a straight line basis to their residual values over the estimated useful lives.

The principal useful lives used are as follows:

	<u>Years</u>
Bank premises	
- improvements, furniture and fittings	Lower of the remaining lease term or 10 years
- office machinery and equipment	5
Computers	3 - 5

Depreciation on capital work-in-progress commences when the assets are ready for their intended use.

At each balance sheet date, the bank assesses whether there is any indication of impairment. Where an indication of impairment exists, the carrying amount of the asset is written down immediately to its recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in the income statement.

K CURRENCY TRANSLATIONS

(a) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia, which is the Bank's functional and presentation currency.

(b) Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges.

Changes in the fair value of monetary securities denominated in foreign currency classified as available-for-sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in the amortised cost are recognised in income, and other changes in the carrying amount are recognised in equity.

Translation differences on non-monetary financial assets and liabilities, such as equity instruments held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as available-for-sale are included in the available-for-sale reserve in equity.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

L INCOME TAX AND DEFERRED TAX

Current tax expense is determined according to the Malaysian tax laws and includes all taxes based upon the taxable profits.

Deferred tax is recognised in full, using the liability method, on temporary differences arising between the amount attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction affects neither accounting nor taxable profit and loss.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses can be utilised.

Deferred income tax related to fair value re-measurement of available-for-sale securities, which are charged or credited directly to equity, is also credited or charged directly to equity and is subsequently recognised in the income statement together with the deferred gain or loss.

Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or deferred tax liability is settled.

M EMPLOYEE BENEFITS

Short-term employee benefits

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits are accrued in the period in which the associated services are rendered by employees of the Bank.

Defined contribution plan

A defined contribution plan is a pension plan under which the Bank pays fixed contributions to the national pension scheme, Employees' Provident Fund ('EPF').

The Bank's contributions to EPF are charged to the income statement in the period to which they related. Once the contributions have been paid, the Bank has no further payment obligations.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

M EMPLOYEE BENEFITS (CONTINUED)

Equity compensation benefits

Staff costs include equity compensation expenses arising from the grant of stock-based awards to the employees of the Bank which are equity-settled. The details of the stock-based awards available are described in Note 32.

The fair value of the employee services received in exchange for the grant of stock-based awards is recognised as an expense in the income statement with a corresponding increase in the option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the stock-based awards on the date of the grant. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date. At each balance sheet date, the Bank revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date as well as the number of shares that will vest on the vesting date and recognises the impact of the revision of the estimates in the income statement, with a corresponding adjustment to the option reserve over the remaining vesting period.

N PROVISION

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made.

O FINANCIAL GUARANTEE CONTRACTS

Financial guarantees are initially recognised in the financial statements at fair value on the date the guarantee is given. Subsequent to initial recognition, the Bank's liabilities under such guarantees are measured at the higher of the initial measurement, less amortisation calculated to recognise in profit or loss, under fees and other income, the fee income earned on a straight-line basis over the life of the guarantee and the best estimate of the expenditure required to settle any financial obligation arising at the date of the statement of financial position. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgement of management. Any increase in the liability relating to guarantees is taken to profit or loss.

P CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and short-term funds and current deposit placed with related parties.

J.P. MORGAN CHASE BANK BERHAD

(Incorporated in Malaysia)

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****Q CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The Bank's accounting policies and use of estimates are integral to understanding its reported results. The Bank's most complex accounting estimates require management's judgement to ascertain the valuation of assets and liabilities. The Bank has established detailed policies and control procedures intended to ensure that valuation methods, including any judgements made as part of such methods, are well-controlled, independently reviewed and applied consistently from period to period. In addition, the policies and procedures are intended to ensure that the process for changing methodologies occurs in an appropriate manner. The Bank believes its estimates for determining the valuation of its assets and liabilities are appropriate. The following is a brief description of the Bank's critical accounting estimates involving significant valuation judgement.

(a) Fair value of financial instruments

The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The majority of the Bank's assets reported at fair value are based upon quoted market prices or upon internally developed models that utilise independently sourced market parameters, including interest rate yield curves, option volatilities and currency rates.

The degree of management judgement involved in determining the fair value of a financial instrument is dependent upon the availability of quoted market prices or observable market parameters. For financial instruments that are traded actively and have quoted market prices or parameters readily available, there is little-to-no subjectivity in determining fair value. When observable market prices and parameters do not exist, management judgement is necessary to estimate fair value. The valuation process takes into consideration factors such as liquidity and concentration concerns and, for the derivatives portfolio, counterparty credit risk.

The Bank's held for trading financial assets are valued based upon quoted market prices. The majority of the Bank's derivative positions are valued using internally developed models that use as their basis readily observable market parameters – that is, parameters that are actively quoted and can be validated to external sources, including industry-pricing services. Certain derivatives, however, are valued based upon models with significant unobservable market parameters – that is, parameters that must be estimated and are, therefore, subject to management judgement to substantiate the model valuation. These instruments are normally either traded less actively or trade activity is one way. Management's judgement includes recording fair value adjustments (i.e., reductions) to model valuations to account for parameter uncertainty when valuing complex or less actively traded derivative transactions.

(b) Allowance for losses on loans and advances

The Bank makes allowance for losses on loans and advances based on assessment of recoverability. Whilst management is guided by the relevant BNM guidelines, management makes judgement on the future and other key factors in respect of the recovery of loans and advances. Among the factors considered are the net realisable value of the underlying collateral value, the viability of the customer's business model, the capacity to generate sufficient cash flow to service debt obligations and the aggregate amount and ranking of all other creditor claims.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013

1 GENERAL INFORMATION

The principal activities of the Bank are banking and related financial services. There was no significant change in the nature of these activities during the financial year.

The Bank is a wholly-owned subsidiary of J.P. Morgan International Finance Ltd., a corporation incorporated in the United States of America. The Directors regard JPMorgan Chase & Co., a corporation incorporated in the United States of America, as the Bank's ultimate holding corporation.

The Bank is a limited liability company, incorporated and domiciled in Malaysia.

The principal place of business and address of the registered office of the Bank is Level 18, Integra Tower, The Intermark, 348, Jalan Tun Razak, 50400 Kuala Lumpur, Malaysia.

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****29 CAPITAL ADEQUACY**

The capital adequacy ratios of the Bank are computed in accordance with Bank Negara Malaysia's revised Risk-Weighted Capital Adequacy Framework: Standardised Approach for Credit and Market Risk, and Basic Indicator Approach for Operational Risk (Basel II).

The capital adequacy ratios of the Bank are as follows:

	<u>2013</u> RM'000	<u>2012</u> RM'000
<u>Tier-I capital</u>		
Paid-up share capital	85,500	85,500
Share premium	42,000	42,000
Retained earnings	598,673	534,354
Fair value reserve – available-for-sale securities	(243)	(258)
Option reserve	7,702	6,263
Statutory reserve	97,778	97,778
	<u>831,410</u>	<u>765,637</u>
Deferred tax assets	-	(1,765)
Total Tier I capital	<u>831,410</u>	<u>763,872</u>
<u>Tier-II capital</u>		
Regulatory reserve	958	-
Collective assessment allowance	308	409
Total capital base	<u>832,676</u>	<u>764,281</u>
Tier 1 capital ratio	23.35%	22.91%
Total capital ratio	<u>23.39%</u>	<u>22.92%</u>

The capital adequacy ratios of the Bank for the financial year 2012 have been restated to comply with BNM's Capital Adequacy Framework (Capital Components) which was effective 1 January 2013.

J.P. MORGAN CHASE BANK BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****30 FINANCIAL RISK MANAGEMENT**

The Bank has developed and implemented comprehensive policies and procedures to identify, mitigate and monitor risk across the entity which are based on JPMC policies. These practices rely on constant communications, judgement and knowledge of products and markets by the people closest to them, combined with regular oversight by a central risk management group and senior management.

(i) Credit risk

Credit risk is the risk of loss from obligor or counterparty default. The Bank provides credit (for example, through loans, lending-related commitments, guarantees and derivatives) to a variety of customers, from large corporate and institutional clients to the individual consumer. Credit risk management actively monitors the portfolio to ensure that it is well diversified across industry, geography, risk rating, maturity and individual client categories.

The Bank follows the policies and practices established by JPMC's Credit Risk Policy Group and BNM's Best Practices for the Management of Credit Risk, to preserve the independence and integrity of the approval and decision-making process of extending credit, and to ensure credit risks are assessed accurately, approved properly, monitored regularly and managed actively at both the transaction and portfolio levels. The policy framework establishes credit approval authorities, concentration limits, risk-rating methodologies, portfolio review parameters and guidelines for management of distressed exposure. Management of the Bank's exposure is accomplished through a number of means including: loan syndication and participations, loan sales, use of master netting agreements and collaterals.

(a) Collateral

The Bank takes collateral as a secondary recourse to the borrower. Collaterals include cash, securities and guarantees. The Bank may also take fixed and floating charges on assets of borrowers. It has put in place policies which governs the determination of eligibility of various collaterals to be considered for credit risk mitigation which includes the minimum operational requirements that are required for the specific collateral to be considered as effective risk mitigants. The collateral is revalued periodically depending on the type of collateral. The Bank generally considers the collateral assets to be diversified.

(b) Master netting arrangements

Master netting agreement is an agreement between two counterparties who have multiple derivative contracts with each other that provides for the net settlement of all contracts, as well as cash collateral, through a single payment, in a single currency, in the event of default on or termination of any one contract. It does not generally result in an offset of balance sheet assets and liabilities, as transactions are usually settled on a gross basis. The Bank's overall exposure to credit risk on derivative instruments subject to master netting arrangements can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

J.P. MORGAN CHASE BANK BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS**FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****30 FINANCIAL RISK MANAGEMENT (CONTINUED)****(i) Credit risk (continued)**

The Bank participates in the Derivative Credit Risk Master Insurance Policy where it pays a credit charge to its Head Office as a credit insurance protection for its derivative transactions. The head office credit portfolio management process includes entering into hedges using Credit Default Swaps ("CDS"), CDS Indices, Foreign Exchange, Interest Rate Swaps and through loan sales.

The Bank uses lending-related financial instruments, such as commitments and guarantees, to meet the financing needs of its customers. The contractual amount of these financial instruments represents the maximum possible credit risk should the counterparties draw down on these commitments or the Bank fulfils its obligation under these guarantees, and the counterparties subsequently fail to perform according to the terms of these contracts. In the Bank's view, the total contractual amount of these lending-related commitments is not representative of the Bank's actual credit risk exposure or funding requirements. In determining the amount of credit risk exposure the Bank has to lending-related commitments, which is used as the basis for allocating credit risk capital to these commitments, the Bank has established a "credit equivalent" amount for each commitment; this amount represents the portion of the unused commitment or other contingent exposure that is expected, based on average portfolio historical experience, to become drawn upon in an event of a default by an obligor.

(b) Loans and advances past due but not impaired

Late processing and other administrative delays on the side of the borrower can lead to a financial asset being past due but not impaired. Therefore, loans and advances less than 90 days past due not usually considered impaired, unless other information is available to indicate the contrary. Gross amount of loans and advances by class to customers that were past due but not impaired were as follows:

	<u>Mortgages</u> RM'000	<u>Total</u> RM'000
<u>2013</u>		
Past due 30 – 60 days	173	173
Past due 60 – 90 days	62	62
Total	<u>235</u>	<u>235</u>
Fair value of collateral	<u>589</u>	<u>589</u>
Amount of over-collateralisation	<u>354</u>	<u>354</u>
<u>2012</u>		
Past due 30 – 60 days	264	264
Past due 60 – 90 days	335	335
Total	<u>599</u>	<u>599</u>
Fair value of collateral	<u>1,573</u>	<u>1,573</u>
Amount of over-collateralisation	<u>974</u>	<u>974</u>

NOTES TO THE FINANCIAL STATEMENTS**FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****30 FINANCIAL RISK MANAGEMENT (CONTINUED)****(ii) Market risk**

Market risk comes mainly from trading and investing in client-focused activities, and is the risk of losses arising from adverse movements in market prices. Market risks are most commonly subdivided into interest rate risk, equity risk, foreign exchange risk and commodity risk, depending on whether the risk factor is an interest rate, a stock price, etc. Market risk is identified, measured, monitored and controlled by an independent corporate risk governance function. Market Risk Management is responsible for the establishment of market risk policies and monitoring of risk limits.

The portfolio effect of holding different instruments across a variety of business activities and asset classes helps to diversify the market risk the Bank is exposed to and reduces the potential losses from market risk.

The Bank's ability to measure and monitor potential losses that could arise from adverse changes in market conditions is key to managing market risks. Quantitative and qualitative measures are an integral and crucial part in the Bank's assessment of market risks.

The Bank's primary tool for the systematic measuring and monitoring of market risk is the Value at Risk ("VAR") calculation, which is measured and monitored at the regional level by lines of businesses. VAR is an estimate of the expected loss in the value of the various regional lines of businesses' activities, where the Bank's activities are rolled up into, over a one-day time horizon. VAR allows for a consistent and uniform measure of market risk across all applicable products and activities. To calculate VAR, the Bank uses historical simulation, which measures risk across instruments and portfolios in a consistent and comparable way. This approach assumes that historical changes in market values are representative of future changes. The simulation is based upon data for the previous twelve months.

Besides VAR, other non-statistical limits such as basis point value and net open positions are used as market risk tools to limit the risk to which the businesses can be exposed to.

The VAR of the Bank at the end of the financial year, based on one-day time horizon and at 99% confidence level, is RM5,336,000 (2012: RM3,428,000). It represents the correlation and consequent diversification effects between risk types and portfolio types across trading and non-trading businesses. However, the use of this approach does not prevent losses outside of these limits in the event of more significant market movements.

The quality of the VAR model is monitored by back-testing the VAR results for trading books. All back-testing exceptions are investigated, and all back-testing results are reported to senior management.

Stress tests provide an indication of the potential size of losses that could arise in extreme conditions. The stress tests carried out by Market Risk Management include: risk factor stress testing, where stress movements are applied to each risk category; emerging market stress testing, where emerging market portfolios are subject to stress movements; and ad hoc stress testing. The results of the stress tests are reviewed by senior management and by the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS**FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****30 FINANCIAL RISK MANAGEMENT (CONTINUED)****(iii) Operational risk**

Operational risk is an inherent risk element in each of the Bank's business and support activities. To monitor and control such risk, the Bank maintains a system of comprehensive policies and control framework designed to provide a sound and well-controlled operational environment.

Primary responsibility for managing operating risk rests with the business managers. These individuals, with the support of their staff, are responsible for establishing and maintaining internal control procedures that are appropriate for their operating environments. To this end, the objectives of each business activities are identified and the risks associated with those objectives are assessed. The business managers institute a series of standards and procedures to manage these risks and to comply with the Bank's operational risk related policies, considering their nature and magnitude.

At the operational level, Internal Audit conducts annual audits and reviews on key operation areas. The focus of the audit is to provide assurance to management on the compliance with statutory requirements, laws, corporate policies and internal guidelines.

(iv) Interest rate risk

Sensitivity to interest rate arises from mismatches in the interest rate characteristics of the assets and their corresponding funding liability. One of the major causes of these mismatches is timing differences in the repricing of the assets and liabilities. These mismatches are actively managed by the Bank and its holding company as part of the overall risk management process which is conducted within JPMC's guidelines and in conjunction with market risk.

30 FINANCIAL RISK MANAGEMENT (CONTINUED)

(vi) Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its cash flow obligations as they fall due, such as upon the maturity of deposits and loan draw downs.

It is unusual for any bank to completely match the maturity profile of its assets and liabilities as business transacted is often of uncertain terms and of different types. Therefore, controlled mismatching of the maturities of assets and liabilities is fundamental to prudent liquidity risk management of the Bank.

The Bank closely monitors its liquidity risk profile with a variety of tools which includes cash flow forecasts and maturity mismatch reports. The Bank has established funding guidelines on the amount of external funding it obtains and conducts regular stress-testing to ensure that it will be able to meet its obligations when they come due.

The table below analyses the Bank's non-derivative financial assets and financial liabilities into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are in the contractual undiscounted cash flows.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

31 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

(a) Financial instruments not measured at fair value

(i) Certain financial instruments

For cash and short-term funds, securities purchased under resale agreement, deposits and placements with banks and other financial institutions, amount due from/to related parties, statutory deposits with BNM, deposits from customers, deposits and placements of banks and other financial institutions with maturities of less than one year, the carrying value is a reasonable estimate of fair value.

For balances relating to the above classes of financial instruments with maturities of more than one year, the carrying value approximates the fair value as these balances are subject to variable interest rate.

(ii) Loans and advances

For performing fixed rate loans, fair values have been estimated by discounting the estimated cash flows using the prevailing market rates of loans and advances with similar credit ratings and maturities. For floating-rate loans, the carrying amount is generally a reasonable estimate of fair value.

The fair value of impaired loans, fixed or floating are based on the carrying value less impairment allowances, being the expected recoverable amount. In arriving at the fair values for loans on the above bases, the total fair value of the entire loan portfolio has been reduced by RM493,000 (2012: RM556,000), being the carrying value of the collective allowance for doubtful debts which covers unidentified losses inherent in the portfolio.

(iii) Credit commitments

The estimated fair values are not readily ascertainable as these financial instruments are generally not traded. In addition, the quantum of fees collected under these arrangements, upon which a fair value could be based, is not material.

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

31 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(b) Financial instruments measured at fair value

(i) Financial assets held for trading and financial assets available-for-sale

The estimated fair value is generally based on quoted market prices and observable market prices. Where there is no ready market in certain securities, the Bank establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis, and other valuation techniques commonly used by market participants.

(ii) Derivative financial instruments

The fair value of foreign exchange derivatives, interest rate derivatives and equity derivatives is the estimated amount the Bank would receive or pay to terminate the contracts at the reporting date.

MFRS 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (ie. as prices) or indirectly (ie. derived from prices); and
- (c) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table represents the Bank's financial assets and liabilities measured at fair value as at financial year ended:

<u>2013</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
	<u>RM'000</u>	<u>RM'000</u>	<u>RM'000</u>	<u>RM'000</u>
<u>Financial assets</u>				
Financial assets held for trading	-	168,557	-	168,557
Derivative financial instruments	-	434,170	-	434,170
Financial assets available-for-sale	-	363,500	-	363,500
<u>Financial liabilities</u>				
Derivative financial instruments	-	348,892	-	348,892

J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

31 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(b) Financial instruments measured at fair value (continued)

The following table represents the Bank's financial assets and liabilities measured at fair value as at financial year ended (continued):

<u>2012</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
	<u>RM'000</u>	<u>RM'000</u>	<u>RM'000</u>	<u>RM'000</u>
<u>Financial assets</u>				
Financial assets held for trading	-	92,653	-	92,653
Derivative financial instruments	-	524,102	-	524,102
Financial assets available-for-sale	-	842,338	-	842,338
<u>Financial liabilities</u>				
Derivative financial instruments	-	519,432	-	519,432

The fair value of financial instruments traded in active markets (such as financial assets held for trading and financial assets available-for-sale) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Bank is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Bank uses a variety of methods and makes assumptions that are based on market conditions existing of each date of statement of financial position. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using quoted forward exchange rates at the balance sheet date. These investments are included in Level 2 and comprise debt investments and derivative financial instruments. In infrequent circumstances where the valuation technique for these instruments is based on significant unobservable inputs, such instruments are included in Level 3.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)****32 EMPLOYEE BENEFITS***Equity compensation benefits*

The incentive compensation benefits are determined by the ultimate holding corporation, JPMC. The following schemes are applicable to the employees of JPMC:

Long-Term Incentive Plan ("LTIP")

Under the LTIP, common stock-based awards, including stock options, restricted stock, and restricted stock units ("RSU") are granted to certain key employees employed by JPMC and its subsidiaries.

Stock options are granted with an exercise price equal to JPMC's common stock price on the grant date. Generally, options cannot be exercised until at least one year after the grant date and become exercisable over various periods as determined at the time of the grant. These awards generally expire 10 years after grant date.

Restricted stock and RSUs are granted by JPMC at no cost to the recipient. These awards are subject to forfeiture until certain restrictions have lapsed, including continued employment for a specific period. The recipient of a share of restricted stock is entitled to voting rights and dividends on the common stock. An RSU entitles the recipient to receive a share of common stock after the applicable restrictions lapse; the recipient is entitled to receive cash payments equivalent to any dividends paid on the underlying common stock during the period the RSU is outstanding.

Value Sharing Plan is a broad-based employee stock option plan in which JPMC grants stock options to other employees as recognition of the services rendered.

(a) Stock options

The movements and weighted average exercise prices of stock options are as follows:

	<u>2013</u>		<u>2012</u>	
	<u>Number</u>	<u>Weighted</u>	<u>Number</u>	<u>Weighted</u>
	<u>of options</u>	<u>average</u>	<u>of options</u>	<u>average</u>
		<u>exercise</u>		<u>exercise</u>
		<u>price</u>		<u>price</u>
		<u>(USD)</u>		<u>(USD)</u>
Outstanding at 1 January	914	39.06	914	39.06
Exercised during the year	(450)	52.77	-	-
Outstanding at 31 December	464	39.06	914	39.06

J.P. MORGAN CHASE BANK BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2013 (CONTINUED)

32 EMPLOYEE BENEFITS (CONTINUED)

(a) Stock options (continued)

JPMC currently uses the Black-Scholes valuation model to estimate the fair value of stock options. The following table presents the assumptions used in the model to value stock options granted during the period:

	Year ended 31 December	
	2013	2012
<u>Weighted-average annualised valuation assumptions</u>		
Risk-free interest	1.18%	1.19%
Expected dividend yield	2.66%	3.15%
Expected common stock price volatility	28%	35%
Expected life (in years)	6.6	3.3

The historical volatility of JPMC's common stock price is used as the expected volatility assumption in valuing options. The expected life assumption is an estimate of the length of time that an employee might hold an option before it is exercised or cancelled. The expected life assumption was developed using historic experience.

(b) Restricted Stock and RSUs

Compensation expense for restricted stock and RSUs is measured based upon the number of shares granted multiplied by the stock price at the grant date, and is recognised in the income statement.

	2013		2012	
	Number of restricted stock/RSU	Weighted average fair value at grant date USD	Number of restricted stock/RSU	Weighted average fair value at grant date USD
Outstanding at 1 January	23,553	38.51	23,189	35.67
Granted during the year	10,922	46.58	13,640	35.61
Exercised during the year	(6,655)	47.13	(11,531)	36.92
Cancelled during the year	(146)	36.97	-	-
Transferred during the year	(1,012)	41.00	(1,745)	35.67
Outstanding at 31 December	26,662	41.00	23,553	38.51

STATUTORY DECLARATION
PURSUANT TO SECTION 169(16) OF THE COMPANIES ACT, 1965

I, Mark Ling Lip Keong, being the Officer primarily responsible for the financial management of J.P. Morgan Chase Bank Berhad, do solemnly, and sincerely declare that the financial statements set out on pages 9 to 85 are, in my opinion, correct, and I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of the Statutory Declarations Act, 1960.

MARK LING LIP KEONG

Subscribed and solemnly declared by the abovenamed Mark Ling Lip Keong at Kuala Lumpur in Malaysia on **27 MAY 2014** before me.

COMMISSIONER FOR OATHS

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS
OF J.P. MORGAN CHASE BANK BERHAD
(Incorporated in Malaysia)
(Company No. 316347 D)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of J.P. Morgan Chase Bank Berhad on pages 9 to 85, which comprise the statements of financial position as at 31 December 2013 of the Bank, and the statements of income, comprehensive income, changes in equity and cash flows of the Bank for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on Notes 1 to 34.

Directors' Responsibility for the Financial Statements

The Directors of the Bank are responsible for the preparation of financial statements so as to give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Bank's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS
OF J.P. MORGAN CHASE BANK BERHAD (CONTINUED)
(Incorporated in Malaysia)
(Company No. 316347 D)

REPORT ON THE FINANCIAL STATEMENTS (CONTINUED)

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Bank as of 31 December 2013 and of its financial performance and cash flows for the year then ended in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirement of Companies Act, 1965 in Malaysia.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report that, in our opinion, the accounting and other records and the registers required by the Act to be kept by the Bank have been properly kept in accordance with the provisions of the Act.

OTHER MATTERS

This report is made solely to the members of the Bank, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.
