NOTES TO THE FINANCIAL STATEMENTS - 30 June 2015

Review of Bank's Performance

NEVIEW OT BANK'S PERTORMANCEThe Bank's profit before taxation for the financial period to June 2015 amounted to RM35.2 million. Net interest income for the period was RM37.3 million. Major contributor for interest income include inter-bank lending (RM39.6 million) and interest earned from securities (RM15.3 million). As for interest expense, amount incurred on inter-bank borrowings was RM5.3 million and interest incurred on customer deposits was RM15.7 million.

Treas new 1.2.7 Initifult.

Income generated from the Bank's treasury activities comprises net gain on foreign exchange trading of RM3.5.1 million as well as net gain from securities trading of RM4.3 million and net gain from derivatives of RM1.9 million. Inter-company charges, commission and fees earned by the Bank amounted to RM20.9 million.

million.

Total overhead expenditure incurred in the 6 months was RM64.9 million. Staff cost and benefits came up to approximately RM20.7 million while establishment expenses amounted to RM5.4 million. Inter-company fees incurred during the period was RM33.1 million, making up the bulk of general administrative expenses. Performance for year-to-date June 2015 was higher than that of the corresponding period in 2014. In the current period, the profit before taxation was RM35.2 million (YD1 June 2014; RM02.7 million). Net interest income for the current period was lower by RM6.9 million while other operating income in the first 6 months of 2015 was RM63.1 million as compared to RM33.3 million in 1015 as compared to RM27.9 million in 2014, as well as a net gain made on derivatives of RM1.9 million in 2015 as compared to a net loss of RM14.7 million in 2014. Other operating expenses incurred during the first 6 months of 2015 was RM64.9 million, as compared to RM56.8 million in the corresponding period in 2014. The increase was attributed to to higher intercompany fees paid whereby RM33.1 million was incurred during the first 6 months of 2015 against RM23.7 million in incurred for the corresponding period in 2014.

Business Outlook for 2015

The macro environment remains challenging in 2015 and volatility in currencies and assets values remains a factor. Despite these conditions, there is optimism that the economic environment will stabilize and the economy will grow. J.P. Morgan will continue to focus on the quality and stability of earnings by investing in its transaction services, trade and wholesale banking businesses while enhancing the flow business.

J.P. Morgan's target clients, consisting of multi-national corporations, large domestic corporates, financial institutions and non-bank financial institutions, benefit from the Bank's significant competitive advantage in terms of a broad product mix and global network which enables us to effectively service clients that have a domestic as well as an international presence.

domestic as well as an international presence. With the Bank's strong capitalisation and proven strength across product and services, revenue growth will continue as investment in existing client relationships delivers results. The Bank will use its global competitive advantage in order to provide clients with value added solutions and innovative products. The international corporate and investment banking businesses is an important component of J.P. Morgan's overall global strategy and continued investment in these areas will contribute positively to our growth.
